PROJECTS

Cynergy — Startup Portfolio Website

- GitHub: <https://github.com/vedanthundare/Cyenrgy>
- Built responsive React portfolio with Tailwind, Framer Motion animations, and parallax scrolling.
- Achieved Lighthouse scores: Performance 49, Accessibility 88, Best Practices 100, SEO 90.

Financial Coordinator

- Created AI-powered financial planning tool with React frontend and Node.js backend.
- Integrated Google Gemini API with custom prompt design to provide user insights and personalized financial advice.

Mini Mart - Ecommerce-Like Website

- Developed property listing app with React, Node.js, and MongoDB; improved response times by 40% using efficient API calls and React-based indexing.

Paytm Clone

- Built Paytm-like dashboard with React and Tailwind CSS for responsive UI.
- Achieved Lighthouse scores: Performance 93, Accessibility 89, Best Practices 100, SEO 91.

WORK EXPERIENCE

Full Stack Developer and AI Intern, Blackhole Infiverse

Mar 2025 — Sep 2025 | Mumbai

- Developed front-end components using React.js with Tailwind CSS for styling and Redux/Context API for state management.
- Built RESTful APIs with Node.js and Express.js; integrated MongoDB for data storage.
- Implemented AI features by integrating Large Language Models (LLMs) using Python for chat/text functionalities.
- Utilized Git and GitHub for version control and Postman for API testing, enhancing deployment efficiency and code quality.
- Coordinated with a team of 7 colleagues (2 front-end, 5 back-end developers) to integrate backend services with a complex front-end application.

Full Stack Web Developer Intern, All World Gayatri Parivar

May 2024 — Jul 2024 | Remote

- Developed frontend components and coordinated with UI designer to enhance system usability.
- Implemented audio storage system integration with drive and rendered audio content using React, improving user experience and content accessibility.
- Managed version control and code collaboration using GitHub.

VOLUNTEERING & LEADERSHIP

Technical Lead, CodeAI Club, KJSIT

undefined Apr 2023 — Mar 2025

- Revived dormant club by organizing and managing events including GDSC ML workshop, Microsoft Cloud ML event and internship.
- Led the organization of LEVEL-UP, a 24-hour hackathon, engaging 15+ members and fostering technical growth.
- Reduced site load time by 30% using React and CDN; led 15-member tech team.

Technical Team Member, IETE Committee, KJSIT

undefined Mar 2023 — Mar 2025

- Increased platform engagement 25% via UI refactor and backend caching; supported technical events.
- Co-organized 'RENAISSANCE' hackathon and a tech event with 50+ participants; managed multiple speakers, enhancing event quality and engagement.
- Coordinated a team of 6 members to develop, link, and deploy a webpage, improving platform usability and growth.
